

Synapse

Volume 7, Issue 5
June, 28, 2015

This National Leadership Conference was educational and rewarding. The diverse content presented in the symposiums and by the speakers met the needs of the conference participants. Students, gained experience, confidence, and success through participation in competitive events. A highlight of the conference was hearing Arizona's own Elizabeth Carnesi sing "America the Beautiful", hearing her was a memorable way to end the 2015 conference. Throughout NLC we traded pins, made new friends, and had many new experiences. Whether you competed or didn't, everyone left NLC as better future health professionals. Thank you to everyone who was part of the Arizona delegation, you helped to make this a great conference!

Disney Fun Fact:

Check this out: Walt Disney was inspired to build Disneyland after taking his daughters to ride the merry-go-round in Los Angeles's Griffon Park. This is proof that the small ideas imagined can later become the innovations of today!
