

Mission Report: Operation Recognition

Arizona HOSA - Future Health Professionals

Vol 8 Issue 5

July 12, 2016

This year your Arizona HOSA State Officer Team has decided to start a new initiative: **Operation Recognition!** One of the most powerful tools in leadership is recognition; merely acknowledging someone's accomplishments has near limitless potential to make their day that much better. To coincide with this year's theme Operation Leadership, Operation Recognition is a new portion of *The Synapse* that will highlight our member's successes. After our amazing work in Nashville, Tennessee at the first ever International Leadership Conference, Arizona HOSA wants to recognize the members and schools that shone on the international stage! Thank you for showing the best Arizona HOSA has to offer. We are looking forward to a year with even more wonderful things to come! - Arizona HOSA State President, Kyle Kline

In addition to our fantastic international medalists, Arizona HOSA also has some completely outstanding members to thank. These individuals are **HOSA Heroes** and have given others the greatest gift possible: their lives. By using their medical knowledge when called upon, **Daniel Hernandez, Ashley Mazur, Areana Villaescusa, and Martin Fernandez** are all the paragon of what HOSA, a group of medical leaders and true heroes. Because of their efforts multiple lives were saved in events that could have been disastrous, from coaches to legislative members. For their valor, we extend our greatest gratitude. If you are aware of any other HOSA Hero, please contact Arizona HOSA so they may be recognized for their great service and always remember that you have the power to be a hero at any moment.

Enjoy reading over our amazing successes and keep reading to learn about parliamentary procedure and some of our past state officers in the articles below! Enjoy your summer and get ready for another year of HOSA!

Health Care Issues Exam Mastery		HOSA Happenings	
Name	School	School

8th	Home Health Aid	GIFT	Marlena Sanchez

8th	Knowledge Test: Behavioral Health	West - MEC MA	Kristyna Beltran
9th	Dental Science	EVIT	Ricardo Sanchez
9th	Home Health Aid	GIFT	Nicole Ortiz
10th	Home Health Aid	GIFT	Julian Rascon

Mission Report: Past State Officer

Arizona HOSA- Future Health Professionals

Vol 8 Issue 5
2016

July 12,

This month's past state officer that we would like to remember is Aden Ramirez. He served as Arizona HOSA's Region 1 Vice President for the term of 2009-2010. Here are few questions and answers to get to know him better!

What was your favorite experience while being a state officer?

My favorite experience while being a state officer was going to the Washington Leadership Academy. It was the first time that I had been to Washington, DC and we got to do so many activities all while learning about leadership.

What was your biggest accomplishment as a state officer?

My biggest accomplishment as a state officer was helping start a new chapter at Yavapai College. This was a hard task to do, especially since postsecondary chapters are difficult to start.

What are your career goals?

I hope to continue my work with HOSA and someday become a state advisor somewhere. I have so much love for HOSA and I want to share that with as many people as I can. I hope to also continue to work with other CTSO and young leaders. I know how much I gained from my experience as a state officer and I hope to make young state officer's experiences just as great.

What is your job now?

I just finished serving as the Arizona HOSA Assistant Coordinator. I am currently an Association Management Specialist with TRI Leadership Resources. There I serve at the state officer coach for Nevada and Oregon HOSA and the Assistant State Advisor for Oregon.

Mission Report: Parli Pro Tips

Arizona HOSA- Future Health Professionals

Vol 8 Issue 5
2016

July 12,

Hello Arizona HOSA members, this is your Parliamentarian Gregory Carnesi here! The school year is approaching fast, which means that another HOSA-tastic year is about to begin! It also means that a lot of business is about to be conducted, which is why throughout the year I'll be giving you tips and pointers about how to conduct your business in the fastest and most efficient ways.

To start, all official business conducted within HOSA is done by the rules of Robert's Rules of Order Newly Revised 11th Edition (RONR). Robert's Rules, first authored in 1876 by Major Henry M. Robert, Robert's Rules dictate the rules and procedures used to carry out a meeting. These rules are called Parliamentary Procedure and are used during any HOSA meeting. The purpose of Parliamentary Procedure is to conduct business in a fast and orderly way and make sure every member has the right to make their voice be heard. To have any sort of meeting you must first have a chairperson, a secretary, and a quorum. The chairperson is typically the president, and presides over a meeting. It is their job to be impartial and keep discussion civil and on topic. The secretary's job is to take minutes and record the events that occur during a meeting. A meeting can't be held without a quorum. This is the number of people required to conduct business. The people

who are present vote on motions and determine the actions that the assembly takes. If all of these things are present you can start a meeting!

Hopefully this provided you with the basics of what you need to hold a meeting. To become an organized chapter, make sure to read RONR and use it whenever possible. In the next edition we will be going over how to conduct business using motions so stay tuned!
