THE GIST: WHAT YOU NEED TO KNOW

Weather

Guarantee that your HOSA Fun Day will be amazing by making sure you and your fellow members are prepared for the day to come!

Trivia

Yesterday's Answer

What is the name of the heart's natural pacemaker?

C.) Sinoatrial node

Today's Question

A nephrologist is a doctor who specializes in the treatment and diagnosis of diseases affecting the ___.

- A.) Liver
- B.) Nervous System
- C.) Kidneys
- D.) Endocrine system

ALUMNI RECEPTION

In the largest crowd seen since the HOSA Alumni Reception's implementation, Arizona HOSA represented with nine members and helped pack the room full of past HOSA members. The welcome address mentioned that the Alumni Division was the second fastest growing division in HOSA with an 18.2% growth rate in this past year alone, encompassing more than 26,000 registered alumni from all over the world. Due to the significant growth of this division, three alumni members were added to the Board of Directors, along with a new Alumni Director At Large, Adrian Patterson. Mr. Patterson has been a member of HOSA for 16 years, served 4 years in the United States Army, and currently works with computed tomography in Oklahoma.

This mix-and-mingle session included snacks, refreshments, and networking. Along with volunteering opportunities at both SLC and ILC, alumni have the ability to serve as leaders and mentors for current HOSA students, conduct workshops, and utilize endless amounts of resources that HOSA has to offer. If you would like to know more about these opportunities or sign up as an Alumni Division Member, please visit <http://www.hosa.org/alumni>

a session and everyone's leaving

Fun Facts

Did you know that Dr. Pepper was created in 1885 by a pharmacist named Charles Alderton in Waco, Texas? Though it's not a medication, it sure makes people feel better.

HOSA EXPO

The HOSA Expo consisted of a remarkable collection of booths and knowledgeable professionals from various fields. It was a great place where members could gain educational and informational knowledge on various colleges, organizations, products, and careers. Aside from learning and networking, we hope you had the opportunity to purchase some HOSA merchandise! It certainly was a unique experience and we are confident that you found something enjoyable. Please keep in mind that the HOSA Expo will be closed for the remainder of the conference.

Your state officers would like to thank you for participating in this year's "Where's the State Officer" challenge. It was a great success being able to meet the members from Arizona HOSA. We were excited to see the work that you, the members were doing at this year's ILC. Thank you to everyone who participated.

WHERE'S THE STATE OFFICER?

- Alexandra Rolfness

HOSA HAPPENINGS

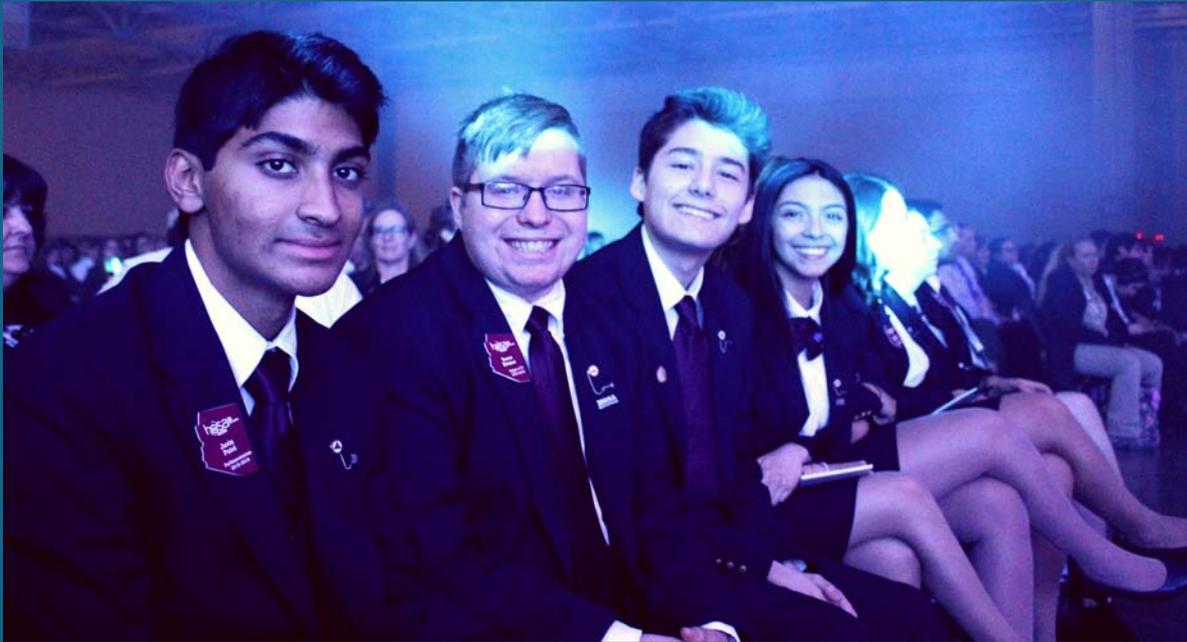

- Glendale Union HS District
- West-MEC NE Pharm 1
- West-MEX NE Med Asst 3
- Paradise Valley HS

Thank you Arizona HOSA members for making the Recognition Session a memorable, proud event for all of us!

Additionally, we would like to extend our warmest, most sincere gratitude to our three national officer candidates.

Kyle Kline is incredibly proud to have been slated for Western Region Vice President. Being recognized as a qualified leader by the HOSA Nominating Committee is an incredible honor. Marissa Bower was nominated to be your next Post-Secondary/Collegiate Vice President. Through networking and her fabulous speech, Marissa truly showed that she was an outstanding leader. Lastly, Elizabeth Church was honored to have been nominated to represent HOSA's Post-Secondary/Collegiate division as the PS/C Board Representative. Her knowledge and confidence has demonstrated that she is an inspiring leader, and one we should all learn from.

Running for national office is one of the most life changing, challenging, and time-consuming decisions a leader can take on. Kyle, Marissa, and Elizabeth have gone out of their way to show their potential as national leaders. To us, they are winners and some of the greatest leaders Arizona HOSA has ever produced. They are truly uplifting leaders that we should all aspire to emulate.

Over the past two days, all of you have had the amazing opportunity to participate in educational symposiums run by inspiring professionals and leaders. We are proud of the members who took initiative and advantage of these wonderful chances for learning. With over 100 different workshops, there was truly something for everyone! The diverse session topics ranged from texting and driving to bacterial resistance, and Army opportunities to veterinary science. Thank you to everyone who attended these. We hope they have expanded your horizons and taught you something new!

THANK YOU
